

## Dual Degree in Bachelor of Arts and Bachelor of Applied Science (Engineering)

This program offers the opportunity to earn a Bachelor of Arts and a Bachelor of Applied Science degree within five years of study, in most Arts specializations and an Engineering specialty.

Application for admission to the program is made through Arts Advising Services (Arts students only; Engineering students apply via Engineering Student Services).

Acceptance into the program will be based on the applicant's academic performance and letter stating the reason for pursuing the dual degree program. Normally, application for admission is made immediately upon acceptance into either faculty. Admission to the program at a later date is also possible but may require a longer time to complete the program.

### Requirements

Students must satisfy all of the program requirements for both the Bachelor of Arts and Bachelor of Applied Science degrees in their chosen programs. Students should meet with an advisor before enrolling in their first year of courses.

Please complete the following fields and submit to Arts Academic Advising Services, Buchanan D114 along with a one-page letter explaining the reason for your interest in the program.

Name:	Student Number:
E-Mail:	Phone Number:
Arts Specialization:	Engineering Specialization:
