

## Double Major Arts/Science

Arts students are able to add a major offered through the Faculty of Science. It is possible to fulfill the requirements for double major combinations within 120 to 129 credits. A Science major is usually declared in second year. An Arts Major is declared in third year.

Students majoring in the following BA programs may not complete a BSc Major in the same subject area: Geography, Mathematics, Combined Major in Mathematics and Economics, Psychology.

**Students intending to pursue the Double Major in Arts and Science program must complete this form and return to Arts Advising after receiving approvals from the Science Major Advisor. The Major Advisor must approve any changes to course selection. Students must meet with an Arts Advisor to ensure all Arts program requirements are being met.**
